

## PRINCIPLES AND PRACTICE OF CLINICAL RESEARCH

Dear Colleagues and Friends,

It is with great pleasure and honour to announce this year's 13th annual Principles and Practice of Clinical Research (PPCR) course. This year's PPCR course will be held at the Ron Joyce Business Centre in Burlington, Ontario on October 3-4 2019

The primary subjects of this year's course are the principles of clinical research, research study design, practical aspects of clinical trials, health economics, health statistics, educational research, and innovation in research. PPCR will provide research and industry personnel, surgeons, residents, fellows and other health professionals with a comprehensive foundation of health research methodology by encompassing basic science methods, evidence based medicine principles, levels of evidence, research ethics, funding opportunities, as well as data management and budgeting.

In addition to the official program, this course offers excellent opportunities to meet experts in the field and establish relationships with other colleagues. The program also includes multiple integrated panel discussions and focuses on clinical research. Following every lecture period, all faculty involved will participate in high-level dialogue that will require participation and critical thinking.

We encourage you to register without delay, as space is limited. Our Course Coordinator is available to assist you with all aspects of the registration process. Please feel free to contact the Course Coordinator at [abbey.payne@cmecourses.ca](mailto:abbey.payne@cmecourses.ca) for assistance. We have included a course brochure and a registration form for your convenience. Please visit our website at [www.cmecourses.ca](http://www.cmecourses.ca) for additional details.

On behalf of the Course Directors we offer you a very warm invitation to attend this year's 13th Annual Principles and Practice of Clinical Research course.

Sincerely,

**Mohit Bhandari, MD, PhD, FRCSC**  
Chair, Division of Orthopaedics  
Professor, Department of Surgery  
McMaster University  
Hamilton, Ontario

**Emil Schemitsch, MD, FRCSC**  
Professor, Department of Surgery  
Western University  
London, Ontario
